

Lower Carbon Footprint 

”A VERY RESOURCE-EFFICIENT INSTALLATION.”

”INSTALLATION TIME WAS 5 DAYS INSTEAD OF THE PREDICTED 10 DAYS.”

PROJECT INFORMATION

Due to the core requirement for energy efficient, affordable housing, a division at SKANSKA met with Elgozell to have a discussion about super-insulated pipe networks.

In response to differing climatic situations, Elgozell provided specific design solutions for each independent development zone.

The energy savings were in line with SKANSKA’s environmental goals of reducing carbon emissions.

”ELGOTHERM PROVIDES A VERY EFFICIENT SYSTEM THAT WE CAN READILY INSTALL OURSELVES.”

After initial contact, Elgozell provide technical information about the Elgothem[®] system and offer their services and expertise, ranging from Free Concept Design through to Quality Audited installation and Post Contract Monitoring.

THE SOLUTION

Elgozell Elgothem[®] super-insulated, pipe network solution is Boklok’s first choice for their energy efficient, residential developments.

Based on minimised thermal energy loss with a practical installation methodology, Elgothem[®] is providing their construction partner, SKANSKA, with tailor-made, cost effective, network solutions that meet their latest environmental performance targets.

Elgozell also provide the detailed design element and budget forecasting as part of their all inclusive service on each and every project.

”ELGOCELL PROVIDES INSTRUCTIONS AND SUPERVISION AT SITE...”

”...AND IS ALWAYS AVAILABLE FOR ADVICE & CONSULTATION THROUGHOUT THE PROJECT.”

CLIENT FEEDBACK

With installations completed at more than 100 sites, Elgocell Elgotherm® has proved its value to its customers by meeting both project time and cost expectations and by providing the predicted energy savings (as demonstrated in follow-up energy audits).

Boklok® is an established residential developer formed through a successful partnership between IKEA® and Skanska®.

”ELGOCELL PRESENTED A SOLUTION AND WE DECIDED TO TRY IT OUT. THE RESULT: A GREAT SUCCESS.”

“WE EXCAVATE IN PHASES AND INSTALL THE PIPES SIMULTANEOUSLY, WITHOUT THE NEED TO WAIT FOR SPECIALIST INSTALLERS.”

“WE ARE IN CHARGE OF THE RESOURCES ON SITE.”

INSTALLATION AT MORE THAN 100 SITES ALL OVER THE COUNTRY.
